

OUTSOURCING

Safety & Environmental Staffing

Part Time or Full Time

Temporary or Permanent

Occupational Services, Inc. ("OSI") will place an environmental and safety professional at your site 1 to 40 hours per week. We can augment your company's existing staff permanently, or provide staff during peak demand periods, employee turnover, medical leave, or for short term projects.

OSI is able to provide support in the areas of hazardous materials and hazardous waste management, radiation protection, biological safety, industrial hygiene, ergonomics, safety program development, environmental audits, chemical inventoring, and safety training.

OSI's staff is efficient, affordable, reliable, and trustworthy.

We can provide the following staff members:

- Certified Industrial Hygienists (CIHs)
- Certified Safety Professionals (CSPs)
- Health Physicists
- Radiation Safety Officers
- Industrial Hygienists
- Safety Engineers
- Hazmat and Hazardous Waste Techs
- Radiological Technicians
- Ergonomists
- Certified Indoor Air Quality Specialists
- Information System Staff
- Chemical Inventoring Specialists

OUTSOURCING is a vehicle that allows existing personnel to focus on core business, respond quickly to change, reduce costs, increase effectiveness, and have direct access to experienced technical staff, state of the art technology, and EHS information systems tailored to meet your exact needs.
